ABOUT ME

I'm a New Media graduate with experience in digital content, visual storytelling, through academic and professional work. Skilled in developing user-focused creative work across branding, content creation, and interactive media.

PROFESSIONAL EXPERIENCE

Content Creator Intern

IC Media, January 2025 - February 2025

- Created short-form video content for YouTube, Instagram, and TikTok using Adobe Premiere.
- Created culturally themed content related to events, holidays, and popular landmarks for social media platforms.

Marketing & Social Media Management Intern

Excellence Talks, June 2025 - August 2025

- Created and managed digital marketing content for LinkedIn to support brand presence and audience engagement.
- Edited interview and promotional videos using Adobe Premiere Pro, including subtitles, thumbnails, and social media formatting.
- Worked on branding materials including logos, animated visuals, and promotional content for online campaigns.

ACADEMIC EXPERIENCE

VeriTruth - AI Content Detection App

Figma • Google Studio

- Created a mobile application concept called VeriTruth focused on detecting AI-generated content and misinformation.
- Designed the application interface using Figma and implemented AI-powered detection features using Google Studio.

Her Vision - Graduation Project

WordPress • StoryMap • Photography • Visual Storytelling • Adobe Premiere

- Created a multimedia website project focused on women artists, combining cultural storytelling, interactive media, photography, and digital presentation through WordPress and StoryMap tools.
- Visited museums and exhibitions to document artwork, conduct interviews, and produce short-form videos to be used throughout the website and enhance the visual storytelling experience.
